Project budget:

ESF (European Social Fund): 3,129,443 € ("Upgrading the University of the Aegean Library")

ERDF (European Regional Development Fund): 220,100 € ("Equipment for the Central Library of the University of the Aegean")

Project goals:

The summarized main objectives of the project are to:

1. carry out the tasks required to complete the automated catalogue of the Library and its integration into the Union Catalogue
2. create a new profile for the Library, capable of serving users regardless of their location and offering some more effective assistance to the educational processes of the Institution by planning and implementing new digital services
3. establish an evaluation mechanism for library services by using scientific assessment tools (in accordance with the performance indicators of Total Quality Management Unit of Greek Academic Libraries TQMU)
4. digitally register the Grey Literature
5. to procure the equipment and scientific materials necessary for for implementing the Project

5. recruit and train the necessary personnel to support the Project at the Central Library and its 5 Departments and to
6. better organize the interlibrary loan service, in view of the future integration of the Library collection into the collective collection, enrich the catalogue with new records and increase borrowing and lending because of the development of the new services as mentioned above.

Project analysis:

The first action of the project refers to the continuation or the design and implementation of new tasks required for enabling the Aegean University Library to participate in Horizontal Action goals (Union Catalogue, Inventory of Gray literature, keep up Library performance evaluation levels etc.). The second action of the project aims to improve and make the use of existing digital information services of the Library better for users, further expand the services, implement new services and to initialize the pilot phase of collaboration with University Departments so that educational procedures and Distance learning are supported.
